

Hatton Newsletter

spring edition

Spring has finally arrived at Hatton Animal Sanctuary and it has brought longer days, warmer sunshine, and joy for our animals.

As we step into April and May, we are excited to share that two very special and exciting events that are just around the corner. These are moments we can't wait to celebrate together with our amazing community.

Thanks to the incredible dedication and kindness of our volunteers, Lisa and Dena, the past few months have been so great. During February and March, 13 dogs and 2 cats found their forever homes. Each of them began a new chapter filled with love and care. From playful pups like Dreamy, Abbie, Clawdine, Brownye, Akio, Latifa, Petite, Diesel, Jack-Jack, Astoria, Mango, Rango, and Martin, to our feline friends Winky and Corelli, every single adoption is a reminder of why we do what we do.

We are so proud of every animal who has taken that big step into their new life and so grateful to everyone who made it possible.

He is named after the famous Harry Potter wizard, but this boy has a magic all his own.

Sirius is a stunning and a very affectionate cat who recently found himself looking for a new chapter of his own. His previous owner described him as her "soul cat." She shared that he acted like a true emotional support animal, sensing exactly when his human needed comfort and providing it without fail.

Now, after losing his soul mate due to financial hardship, Sirius is the one in need of a little comfort and a lot of luck.

Helium

At 9 years, this 63lb Old English Bulldog is a "chill vibes" professional. He loves snacks, naps, and snoring like a freight train. He's looking for a cool, AC chilled home where he can be your one and only king.

Meet Spike and Fab Five!

We rescued Spike after he was found wandering the streets of Silver Spring. While he was at animal control, he spent his days feeling down and alone. But now those days are gone. Spike has a big family and a whole herd to be with now.

This dad and his four boys have arrived. The babies are Old English rooster mixes. They are tiny, precious, and full of personality. This marks the first rescue by our chicken expert, Dorothy.

Shout out to Mr Moon!

A huge thank you to Mr. Moon! He's been busy around the sanctuary and making life better for all our animals. Thanks to his hard work the goats, donkeys, and sheep now have their favorite brush tower. The chickens enjoy new windows with fresh light and better ventilation. The ducks have a new feeding area that stays dry and leak free. And that's just the beginning, so many more improvements have been made thanks to his dedication. We're beyond grateful for everything you do!
