

Hatton Newsletter Fall Edition

Hello everyone!

There are many things that I would like to share with you guys. First off, since the winter season is approaching, we need hay. For the rescued animals at Hatton Animal Sanctuary, hay is not just food—it's warmth and comfort. It helps fill hungry bellies, keeps them healthy, and brings them peace through the cold months. Your gift of hay makes a big impact. With your kindness, you support every cow, sheep, goat, horse, chicken, cat, dog, donkey, and duck in our care, and each feels safe and loved.

We also have much good news, and one piece of sad news. The good news is that 10 animals have been adopted out in the span from 7/23 until now. Eight of them were dogs, and two of them were cats. The dogs' names were Bump (Train), Lani, Puffy, Pearl, Sasha, Wadud, Tiki, and Skyler. The cats that got adopted were Fred and Tinman. Another piece of good news is that Moonbeam has made a great recovery, and she now has a fully healed and healthy front left leg.

We are very sad to share that our sweet Frankie has passed away. Frankie was a true fighter. He beat cancer twice before, but when it came back a few months ago, it spread quickly. This time, there was no cure. We worked closely with his doctor to make sure he stayed comfortable and happy.

Even in his last weeks, Frankie showed how strong and special he was. Though he was getting weaker, he still had little bursts of energy—greeting us at the gate for his walks, and checking the yard like it was his job. On his last day, Frankie had a nice breakfast and a short walk with his favorite walker, Page. That evening, he rested on his favorite bed, surrounded by love. Just before midnight, Frankie passed away peacefully. Frankie was strong, gentle, and always watching over us. We will miss him so much, and remember him with love always.

Upcoming Events

DINE AND DONATE AT WALKER'S TAP AND TABLE

WHEN	Monday, October 6th 11:00 AM - 9:00 PM
WHERE	2465 MD-97, Glenwood, MD
WHY	All these donations that are given will be used to stock up on hay for the winter. It will also be used to cover critical medical care, emergency treatments, and provide safe shelter with daily enrichment for our rescues.
INFORMATION	10% of all sales will be donated directly to support the Hatton Animal Rescue Foundation. Be sure to present this flyer (print or mobile) or mention the fundraiser when ordering for dine-in or carry-out. If you scroll all the way down you will find the flyer.

PUMPKIN DROP OFF

WHEN	Sunday, November 9th 11:00 AM - 2 PM
WHERE	Little Sykes Railroad Park, 731 Sandosky Rd, Sykesville, MD
WHY	It is pumpkin season and this is the animals favorite time of year because they get to enjoy their favorite snacks.
INFORMATION	Please bring your leftover pumpkins with no paint, wax, or chemicals on it.

Available for Adoption

NAME	BREED	AGE	ABOUT THEM
Romeo	Terrier/Miniature Schnauzer (long coat)	11 years old	He weighs around 7 pounds, friendly and attention seeker. Better off with no children.
Dexter (Snaggletooth)	Chihuahua/Terrier (Short coat)	10 years old	He is around 11 pounds, loves to cuddle, he would do best with older children

Here is the link to find more about Romeo, Dexter, and many other cats and dogs that are available for adoption: [🌐 Adopt | Hatton Animal Rescue](#) With this link, you could also learn more about us and see our past newsletters.

Moonbeam's Story

At just 6 months old, Moonbeam the sheep faced a horrific leg injury and dangerous infection. Her condition was so serious that she had to be rushed to New Bolton for emergency care. But Moonbeam never gave up—and neither did we. With dedicated treatment, patience, and her own incredible strength, she made a remarkable recovery. Today, she's thriving with a beautiful, fully healed front left leg. Moonbeam's journey is a powerful reminder of resilience, hope, and the life-saving impact of rescue.

Meet Penny and her babies

On August 8th, we got a wonderful surprise — Penny became a mom to two adorable babies, Donnie and Marie.

From the beginning, Penny has been a great mom. She gently teaches her babies how to eat, scratch, and explore their world. When they were small, Donnie and Marie loved riding on her back — a sweet sign of their strong bond.

Now they're growing fast, full of energy and curiosity. It's a joy to watch this little family grow and enjoy life together.

Meet Elsie and Rosie

These two beautiful girls came to us as young rescues weighing just 400 lbs each. Today, at almost 5 years old, they've grown into strong and healthy 1,800 lb cows! Seeing their transformation reminds us how much love, care, and good nutrition can change a life. From fragile beginnings to thriving today—Elsie and Rosie are living proof of the power of rescue.
